Pecans 8

La Pampa is the Argentine equivalent of the North American prairie. These vast Argentine prairies occupy one-third the surface of Argentina, and have contributed to the development of a vast supply of quality beef products that are used in the preparation of the unique taste and richness of the Argentine cuisine. In an effort to replicate the richness of this taste, La Pampa proudly offers the traditional cuisine of Argentina utilizing American Black Angus beef, known for its rich flavor, juiciness and tenderness.
